

Reports on Seminars, Conferences, Workshop On Quality

2014 – 2019

YEAR: 2019-2020

Seminar on Awareness program on IoT Training

Date: 2nd July, 2019

Time: 9.30am – 11.00 am

Venue: Conference Hall

Participants: III B.Sc.(Computer Science) & B.C.A Students

The Internet of Things [IoT] is the extension of internet connectivity into physical device and everyday objects, embedded with electronics, Internet connectivity and other forms of hardware, these devices can communicate and interact with others over the internet and they can be monitored and accessed with remotes.

The Department of Computer Science conducted an awareness program for 3rd year students, to make them know about the importance of IoT. Resource people from **PROVIDERS SKILL ACADEMY Pvt. LTD., Chennai, headed by the In-charge Mrs.Leena S,** were Invited and oriented students. They emphasized on the vision “make machines smart enough to reduce human labour to nil”. It was an interactive session and they discussed about the pros and cons of the technology. Some real time applications were demonstrated to the students using Powerpoint presentation. Topics covered were smart homes, wearables and smart cities and a lot more.

The students were really benefitted from this awareness session as it was a great eye opener for all. The students learnt many unknown facts about this blooming technology and are really enthusiastic to work with IoT.

Seminar on PUTTING YOUR BEST FOOT FORWARD: A Good Start to a Successful Software Career

Date: 18th July, 2019

Time: 11.15am

Venue: Conference Hall

The career orientation program which is a career development instructional program designed to prepare students on the various career opportunities available and methods to excel in the fields chosen.

The Department of Computer Science arranged a career Orientation program for the 2nd and 3rd year students.

This interactive session was conducted by our college alumni **MR.SAMUEL SIMEON** from the batch 2005-2008. He is the founder of **Develop Solutions** and **One Foot Technology** which was started in the year 2016 and 2019 respectively. He is an Entrepreneur and experienced Software Engineer with a demonstrated history of working in the information technology and services industry. He is Skilled in building robust state-of-art applications for mobile and the web.

Various activities were conducted which conveyed values to uphold in the working environment.

- *Dum charades* was conducted to convey the importance of communication skills
- *Stone-paper-scissors* was played to make students aware of how to tackle problems and complex situations in the working environment.

Various career opportunities related to the field of computer science were discussed. Tips were given on how to tackle various rounds of an interview session. The resource person guided the students to make the right career choices. Technologies which are currently trending were brought into limelight which helped the students to channelize their goals.

The students were extremely benefited from this jovial session and they came to know about the present IT companies and their working patterns.

At the end of the session the resource person discussed on placements and internships given to students.

Statelevel Workshop & Championship on Robotics – IIT Event

Robotics deals with the design, construction, operation, and use of robots, as well as computer systems for their control, sensory feedback, and information processing. These technologies are used to develop machines that can substitute for humans and replicate human actions. It is an interdisciplinary branch of engineering and science. Robotics is highly recommended for students as it's the future of the world.

The department of computer science held 2-day hands on statelevel workshop for the students. Around 44 students from B.Sc. computer science and BCA Students participated in large numbers from both shift I & II. This workshop instilled the interest and enthusiasm among the students.

Resource Person Mr. Utsav, a skilled trainer in the field of electronics, Mechatronics and Robotics. He is an excelled trainer in Arduino and Raspberry-pi, embedded systems and microcontrollers. He was invited to conduct this interactive workshop.

Fundamentals of Physics were taught as they were considered to be the basic step in robotics. The session was really interactive and students gained enough knowledge in the field of robotics. The fundamentals of Embedded-C Language were also discussed. Robotic kits were given to students to implement the topics taught during the 2-day session. The importance of the field was also brought into the limelight. The students enjoyed this enthusiastic workshop. Participants were given small assessment at the end of the session.

Chennai Literary Fest Chennai Literary Fest was hosted on 9th January 2019

In the college premises in collaboration with the University of Madras. Students from over 25 colleges participated and 58 students and staff registered for the event. 30 PG students from the Department also participated. The Seminar was on Translation studies moderated by Dr. Alagarasan, Associate Professor, Madras university and Dr. Venkataramn, Associate Professor, University of Madras. They gave valuable insights on translation and its importance. They also enlightened the students about different types of translations and its uses.

National Workshop on R Programming – July 6th 2019

The National workshop on R Programming was organised by Department of Mathematics, during 6th July 2019. The total number of participants from Academia and Industry is 54. The topics covered were Data File – Creation and Editing data, Charts, Reports and Reliability Analysis of the Data, Uni-variate Analysis: Execution, Discussion ; Results, Measures of Central Tendency, Measures of Dispersion, Kurtosis, Analysis of Distribution functions- Normal, Binomial. Testing of Hypothesis, Independent Sample t- test and t- test. F- test, Chi square test-Discussion and Results. Regression, Multiple Regression and Correlation Analysis. Hands on training at the end of each session.

The Resource persons were Dr. G. Kumarapandiyam, Assistant Professor, Madras Christian College (MCC) and Dr. R. Amala, Assistant Professor, JIPMER, Pondichery.

Photography Work Shop

Photography workshop is mainly conducted on 08.03.2019 for II and I year Vis.com students. The objective of the workshop is to learn Lighting used AD photography in indoor and outdoor and techniques used for wild life photography. AD photography is one of the most sought-after careers in the photography world. This genre of photography is glamorous

and high profile. It gives photographers an opportunity to use their imagination and creative streak to the fullest, in order to capture an image.

Ms. Mahalakshmi photographer was the resource person. The main objective of the workshop is to learn the lighting techniques in indoor and outdoor. The students go hands on practice in the selection and proper placement of lights for shooting in fashion photography and AD photography.

Session started at 11.am and ends at 1 pm. Ms. Mahalakshmi explaining students different lighting techniques used in indoor. Then also explaining how to compose a frame and how to shoot wild life photography. Students learned how to control light in outdoor Ms. Mahalakshmi conducted questionnaire session students enthusiastically asked questions to Ms. Mahalakshmi and clarified their doubts.

Seminar on Recent Trends In Marketing

- The Department organized Cognito2019, A Seminar on Recent Trends in Marketing on 14th August 2019. The Resource person for the day was Mr.SureshKumar.K, Managing Director, Biomiicron India Pvt.Ltd. The Resource Person gave an idea about various opportunities available in the marketing job and he also explained about the scope of Pharma Marketing. A MOU was signed regarding Training, Internship and Placement opportunities between the department and the organization.

Seminar on Logistics

- The Department organized a Seminar on Logistics as a career on 30th August 2019. Mr.John Prakash, Co-founder, Business School of Logistics and Shipping briefed the students regarding Logistics as a study, its scope and career opportunities in this digital era. A MOU was signed between the organization and the department regarding Training and for the certificate course.

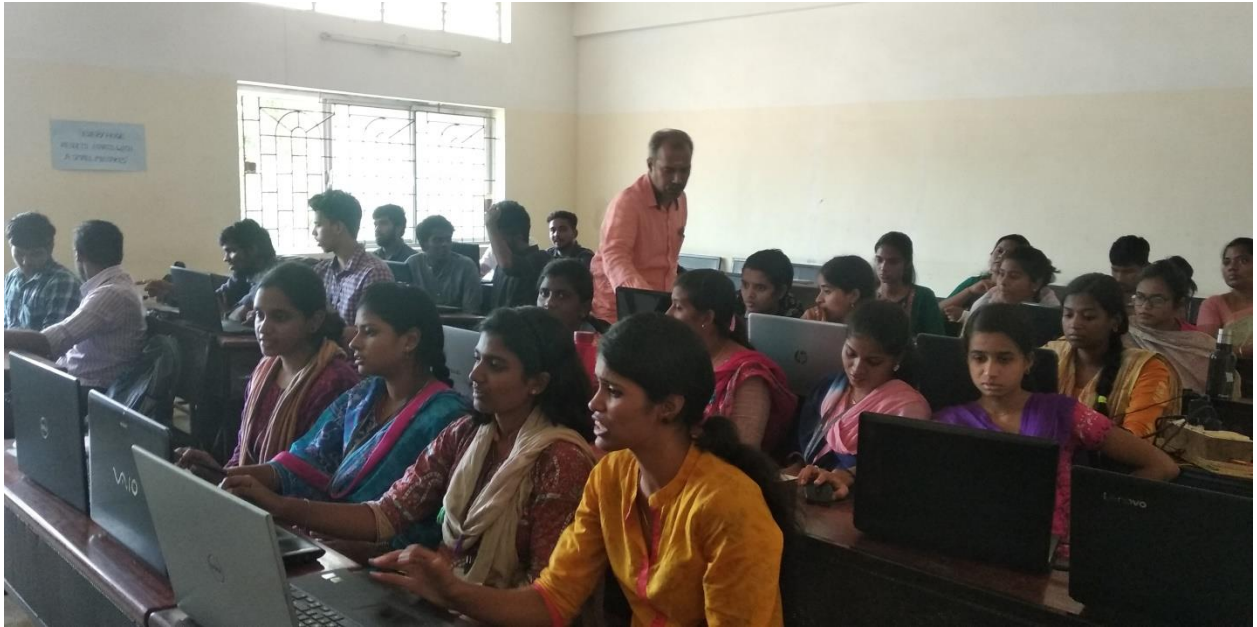

WORKSHOP ON SPSS SOFTWARE (STATISTICAL PACKAGE FOR SOCIAL SCIENCES)

Introduction

SPSS Statistics is a software package used for interactive or batched, statistical analysis. SPSS, which stands for statistical package for the social sciences, is an application that can aid in quantitative data handling. SPSS is user friendly software and easy to use for the beginners and also helps in analysis even when the data set goes larger.

The abbreviation SPSS stands for “Statistical Package for Social Sciences”, that is a comprehensive system for analyzing data. SPSS package consists of a set of software tools

for data entry, data management, statistical analysis and presentation. SPSS integrates complex data and file management, statistical analysis and reporting functions. SPSS can take data from almost any type of file and use them to generate tabulated reports, charts, and plots of distributions and trends, descriptive statistics, and complex statistical analyses.

A two days' workshop on "SPSS Software" was conducted by the Department of Social Work at Patrician College of Arts and Science for MSW and M.Phil students. It was conducted on 27th and 28th June, 2019. Mr. Vasudevan, Assistant Professor of Department of Geography, Presidency College was the facilitator. 30 students participated in the workshop.

Need for the training

It will help the students to process critical data in simple steps. These techniques will be used to analyze, transform and produce a characteristic pattern between different data variables. SPSS (Statistical Package for the Social Sciences) training will guide the students through the fundamentals of research methods and statistics before moving on to the use of SPSS.

Title**Workshop on SPSS software (Statistical Package for Social Sciences)****Aim**

To conduct a 2 days' workshop on SPSS Software for II MSW and M.Phil students with a knowledgeable research person which would be helpful for the students for their further studies.

Objectives

- To make the students learn basic data analysis with **SPSS**.
- To enable the students to understand the uses of SPSS, as a tool to summarize and aid in the interpretation of research findings.

Resource Person Profile

Mr.Vasudevan – Assistant Professor,Department of Geography, Presidency College.

Date

27/06/2019 and 28/06/2019

Time

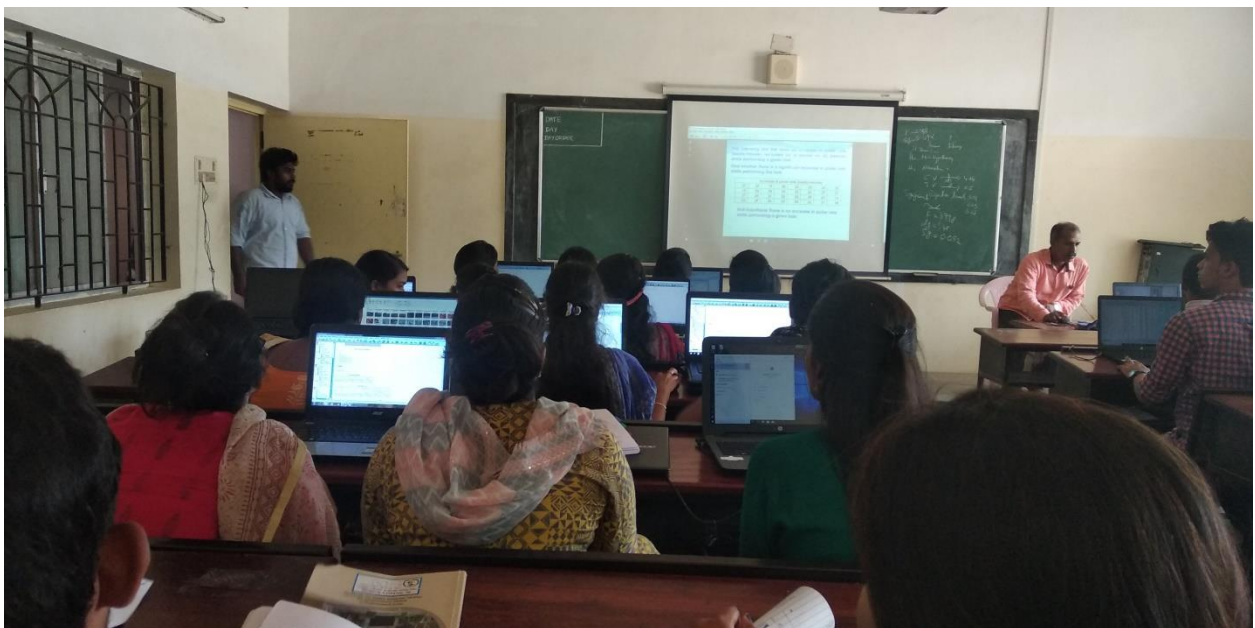

9.00 am – 1.30 pm

Venue

Department of Social Work

Programme Consent

The Department of Social Work had organised a 2 days' workshop on SPSS. The Trainer was introduced by a student of II MSW. The Trainer began the session by explaining the basic concepts in research like creating new data, correlation, scientific method, major stages in social research, etc. Students were attentive and keenly focused on the concepts that were taught. Students were also taught about the selection of research problem as well as the importance, sources and aspects of it. On the first day, the trainer completely focused on theory so that it would be a strong base for fundamental knowledge regarding research. On the second day, the trainer explained about hypothesis in detail and how to use all the tools in SPSS. While the students applied the theoretical knowledge to practice the analysis part, few doubts were raised and that was clarified by the trainer. At the end of the second day, feedbacks regarding the workshop were given and the day was concluded with vote of thanks by II MSW student. Later that day, certificates were issued to the participants.

Programme Outcome

SPSS is a powerful statistical application package from IBM used for analysis of data. The training delivered the skill related to the use of SPSS environment for data understanding, data preparation, and ways of executing sequence of operations to derive the result in the required format. The students gained clear knowledge on SPSS Software.

Feedbacks from participants

- 1) I was able to learn all the basic concepts in research and came to know how to use SPSS tools in research analysis. – Benita (II MSW)
- 2) I found the session informative but boring since there was no energy and the vocal volume of the resource person was less. – Vivian Lawrence (II MSW)

Training on Human Resource Development

Introduction

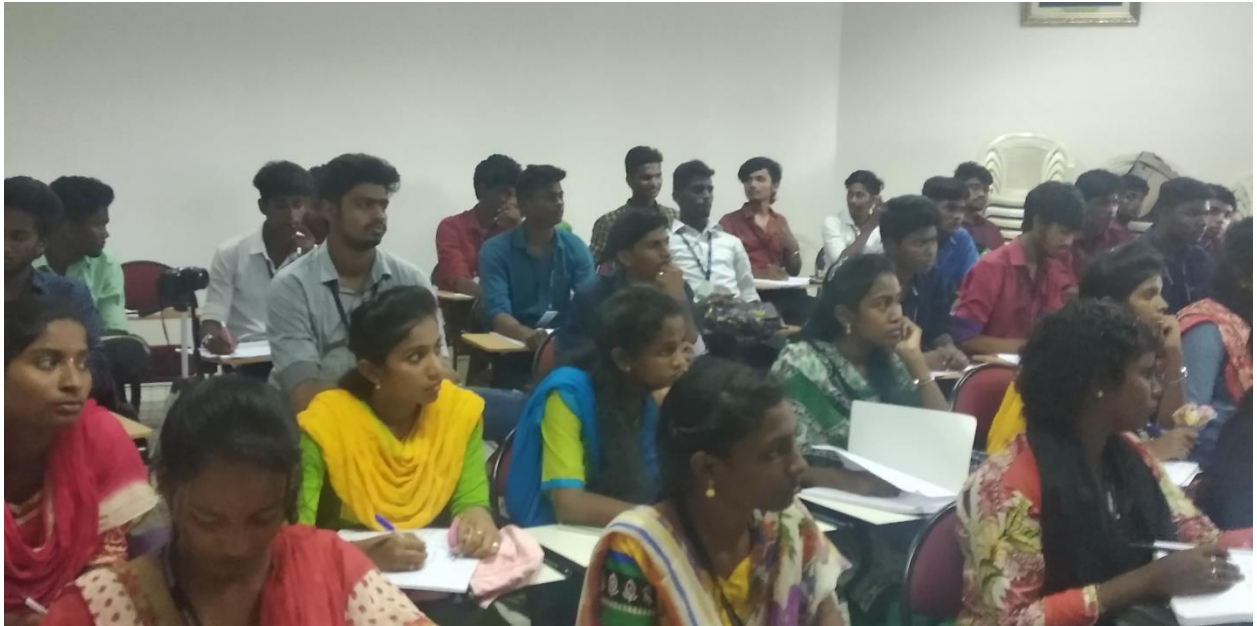

Human Resource Management (HRM) is the function within an organization that focuses on the recruitment of, management of, and providing direction and guidance for the people who work in an organization. As you can imagine, all of the processes and programs that are touched by people are part of the HR kingdom. The workplace processes that interact with customers and potential employees are also components in the Human Resource (HR) world.

The HRM department members provide the knowledge, necessary tools, training, administrative services, coaching, legal and management advice, and talent management oversight that the rest of the organization needs for successful operation.

Many HR departments are responsible for organization development that generates the culture of the organization. They are charged with oversight responsibilities to ensure that their organization appropriately builds teams and inspires employee empowerment.

HR staff members are partially responsible for ensuring that the organization has an overall mission, vision, and values that are shared and provide an overarching reason for employees to want to work for their organization. These elements are inspirational and help employees feel as if they are part of something that is bigger than themselves.

Additional activities sponsored by HR management can include employee and community outreach. They are frequent mentors and members of employee teams that address philanthropic giving, employee engagement activities, and events that involve employee families.

Need for the training

It will help the students to understand the process of operation and activities, management style and endeavor to realize the gap between the theoretical knowledge with the real business world. It will enable the students to analyze the current performance appraisal format & compensation. This training will make the students to identifying inherent problems associated with the format.

Training on Human Resource Management with special reference to MSW HR

Objectives

- To learn the operations and activities of HRs
- To enable the students to understand the current trends in the HR field
- To highlight the opportunities and struggles faced by the HR in current days.
- To brief of the various HR policies and processes
- To emphasis on the ethical considerations in the HR industry

Resource Person Profile

Mr.Rufus – Human Resource Manager – Equitas.

Date

17/07/2019

Time

11.00 am – 1.30 pm

Venue

Department of Social Work

Programme Content

The Resource Person gave a clear idea on the following points

- To get effective and efficient employee, the organization should arrange proper training and development programs.
- The entire HR department should be well informed regarding the employment personal.
- The organization should provide well direct compensation as well as direct to its staffs.
- The management should have job evaluated salary structure, which is most competitive than other organizations in the country.
- To evaluate employee's performance; the management should follow promotion policy properly.
- In order to get competitive advantage and to deliver quality service, top management should try to modify the services.
- Periodical performance appraisal and giving recognition and rewards to the qualified employees to keep motivating them.
- Proper training needed for ensuring efficient performance of the employees.

Finally he ended up saying, committed and trustworthy employees are the most significant factors to becoming an employer of choice, it is no surprise that companies and organizations face significant challenges in developing energized and engaged workforces. However, there is abundance of research to demonstrate that increased employee commitment and trust in leadership can positively impact the company's bottom line. In fact, the true potential of an organization can only be realized when the productivity level of all individuals and teams are fully aligned, committed and energized to successfully accomplish the goals of the organization. Thus, the objective of every company should be to improve the desire of employees to stay in the relationship they have with the company.

WORKSHOP ON CAREER GUIDANCE

DATE: 04/09/2019

TIMING: 8:45am to 12:00pm

DESCRIPTION:

The Department of Social Work of Patrician College of Arts and Science has conducted a Workshop for Career Guidance for the 3rd year students of the Social Work Department to develop the skills of the students and to give them a platform of career ideas in Human Resource Management to pursue further for their successful career life.

RESOURCE PERSON:

Name: Hariharan.V.S

Position: Lead-Human Resources

Company: eNoahiSolution India Pvt Ltd

Experience Background: A 'Holistic HR Professional' with 8+years of Experience in fields of verticals such as,

- Recruitment and selection,
- Learning and Development,
- HR Operations and Analytics,
- Change Management,
- Cultural, Behavior and Strategy Designer,
- Employee Career Planning and Benefits,
- Motivating and Wellness Training

Wellness, life and mind coach, currently training work force on Subconscious Leadership and Happtitude.

Educational Background:

B.sc Physics

Master in Social Work (HRM) from Madras Christian College, Chennai.

OBJECTIVES OF THE PROGRAM:

- To give career guidance for the students.
- To analyze and develop the professional skills of the students.
- To shape the personal behaviors and attitude of the students.

Sequences of the Workshop session :

Introduction:

Mr.Hariharan began this workshop session of career guidance at 8:45am with a small introduction about himself, about his graduation, his present position and the past and present work and activities done by him.

The Ice-breaker Session:

In order to break the ice and to build a rapport an ice-breaker activity has been performed to bridge the gap between him and the students. In this activity 10 to 15 random volunteers were called to perform the activity. In a straight line of alternative boys and girls were instructed to stand in front and to close their eyes. The initial person of the straight line formed has to visualize an action performed by Mr.Hariharan and was asked to pass on the same action to the next person one after the other. The final action which has been performed by the last person was end of the activity. This activity indicates that how important is communication and the way each person receives an instruction and how it has been carried out .

After the Ice-breaker session Mr.Hariharan asked about each ones personal skills and to analze it and to develop it.

He asked about the recent activities done by the students based on community organization and gave instructions in developing the skills of the students.

He spoke about the importance of the course and made the students to realize how privilege it is to study this course. He also spoke about his overcoming techniques of obstacles during his graduation. He instructed the students to write down their ambition in a sheet of paper and also to develop their skills since this is the right age for the students to develop their potential skills to the fullest and to make the maximum development of it and to gain lots of knowledge and never loose opportunities to gain experience.

A PPT was been put up for the students about the life history of jeffbezos the CEO of Amazon and also about Jack Ma who are among the richest people of the world and their way of developing their skills and tackling of obstacles in their successful career life. Another example of the experiment of a pike fish syndrome by a scientist which insisted that not to give up at any circumstances of life. Another example of honey bee was given to look at the problems in a easy a way of tackling them and to move forward.

An activity was performed by five random volunteers of the class which is similar to a game like activity based on listening, receiving and reacting to the command of the instructor.

This activity is to analyze that each person is specific in his/her thoughts and action and the way each person receives the message.

He also spoke about the CSR projects which could be done by an HR and also about the community development activities. He mainly insisted that the work done by any person should be liked by them and to put in the fullest effort in doing any activity which gives a proper satisfaction.

He spoke about the skills of leadership which each person should possess since he inculcated the saying that “As is the leader, so is the follower “. Therefore having a good personality as well as a good behavior and attitude is essential to possess a good leadership quality. He also insisted that the mind and body of a person should be linked before speaking and doing any sort of activity and the shaping of the behavior and activity has to be implemented right from now at this prime age of students which has to be cultivated and to develop to the fullest.

He spoke about the importance of communication with the people and the proper usage of language skills which has to be developed by every individual in order to have a proper communication with people and to build confidence. He shared techniques on how to improve communication skills which includes speaking in front of the mirror for at least 2 minutes a day to build up personal confidence while communicating with others.

Another activity which was based on sleeping in which the students were asked to try sleeping for 5 to 10 minutes in order to have relaxation as well as to know the importance of sleeping.

A video was played about the importance and the facts of having a proper sleep. The video included the dreams of children, adolescence and the adults and also the causes of insufficient sleep and the effects of it. It also includes the method of proper sleeping .another video of motivation of believing and not to give up till the last moment and keep trying towards the achievement to the fullest was also played.

He spoke about the preparation of resume for any interviews and also about the privilege of the course and as well as the weightage of it.

Another activity which is based on the unity was performed in which five students were instructed to stand in a two sheets of paper for a particular time. This activity is purely to strengthen the unity of the team members and to analyze that each person is unique . This is to develop the team work, co-ordination and the co-operation of each individuals together.

There was a short break between 11:00am to 11:25am.

After the break a group discussion was held based on the topic of Artificial Intelligence whether it is a boon or a curse to the world. Each one shared their particular views on it.

At 12:00pm the session was concluded by Mr.Hariharan saying that opportunities are wide open in the hands of everyone and to make the fullest use of it and he mainly insisted

the students to have a proper and a well mannered attitude and behavior since attitude is the everything which completes a person.

PROGRAM OUTCOME:

The students were benefited through the program which gave them an idea to pursue their career after the graduation and to inculcate a better and proper attitude and behavior and to develop their skills to the fullest for achieving the goal.

FEEDBACK:

Since improper communication prevails to be the block for interacting with the people and the society, his teachings of basic techniques removes the block and creates confidence among the individuals if it is made into a regular practice.

Though the age of adolescence does not realize the importance of sleep and its benefits, the method which was delivered to the students by him about the awareness of sleeping was insisted in a very deeper way in the minds of the students.

Since due lack of time and equipments a few required activities could not be conducted and performed

TRAINING ON LIFE SKILLS

Introduction

Adolescence, a vital stage of growth and development, marks the period of transition from childhood to adulthood. It is characterized by rapid physiological changes and psychosocial maturation. Adolescence is also the stage when young people extend their relationships beyond parents and family and are intensely influenced by their peers and the outside world in general. As adolescents mature cognitively, their mental process becomes more analytical. They are now capable of abstract thinking, better articulation and of developing an independent ideology. These are truly the years of creativity, idealism, buoyancy and a spirit of adventure. But these are also the years of experimentation and risk-taking, of giving in to negative peer pressure, of taking uninformed decisions on crucial issues, especially relating to their bodies and their sexuality. Adolescence is thus a turning point in one's life, a period of increased potential but also one of greater vulnerability.

Need for the training

Life skill training is very important for everyone who would like to be most successful in career and look for a quality personal life. Ideally if these skills are given from school age, the effect will be seen when the individual is ready to take decisions related to their choice of career and accordingly the selection of courses, be it professional or otherwise. Sometimes we are baffled with indecisive situations and to find answers become a herculean task. In such tricky situations, life skills help to bridge the gap. Hence this training was conducted for the social work students

Training on Life Skills

Objectives

- Help the participants develop their knowledge on life skills.
- Enhance and upgrade their life skills.
- Equip the youth with the skills that enable them to make informed choices for responsible behaviour.

Resource Person Profile

Mr. Sathish Kumar R – UGC Senior Research Fellow MSSW

Date

06/09/2019

Time

9.00 am – 1.30 pm

Venue

Department of Social Work

Programme Content

Knowledge of oneself or self-awareness. On the basis of their self awareness, how young people build their self-esteem and self-confidence. Ways to build their assertiveness or ability to respond confidently to any situation. Highlights on self-knowledge leads to self control so that people can cope with their emotions and stress was given.

The students were briefed on the development of one's interpersonal relationships with the people around one, family and friends, peers, people in authority and adults.

Programme Outcome

The training equipped the students with the life skills in taking positive health choices, making informed decisions, practising healthy behaviours and recognising and avoiding risky health situations and behaviours.

YEAR -2018 -19

National Level Competition For Engineering Students
Association with BECon Fest(IIT Delhi Event)

Workshop Details

Topic: Cyber Security and Ethical Hacking
Dates: 18th & 19th July 2018
Registration Fee - INR 969/-

Benefits

- Industry Expert Faculty.
- Certificate to each participant.
- Medals & Certificates of Excellence for Top 5 students
- Top 5 Outstanding selected students get the chance to participate in the final round @IIT Delhi campus
- Internship assistance to all participants.

Mode of Selection

1st Round:
Patrician College (Chennai)
2nd Round:
IIT Campus

Prizes worth 50k

Venue: Patrician College, Chennai
Principal: Dr. A.Joseph Durai
Co-ordinators: Dr. Subbulakshmi B - 9003209077

Report on Two Days National Workshop On

“Cyber Security and Ethical Hacking”

Organised by Department of Computer Applications, Department of Computer Science & BEC on IIT Delhi

(17th to 18th July 2018)

The workshop of “Cyber Security and Ethical Hacking” was organised by Department of Computer Applications and Department of Computer Science, during 17th and 18th July 2018. There were total 45 participants. Among 45 participants; 10 out-side institutional students and 35 institutional students were registered.

During these two days, various industry experts shared their insights, real life scenarios, practical cases and their experiments on Ethical Hacking domain.

Day – 1

The first lecture session of the workshop was delivered by Mr. Varun Pathak, Senior Security Analyst, PwC, Gurgaon, India. He started with a keynote lecture about the basics of Ethical Hacking. He explained the various types of hackers and covered the necessity of hats and security hackers. In the second phase of session, the core part of Hacking and case studies were covered. It includes the real time practice of Injections which mainly includes SQL Injection, Server Side Injection, Command Injection and HTML Injection in detail. To illustrate the topic of broken authentication and session management, he explained the practical aspects of insecure login forms, password attacks, session management and session management on administrator portals. He had

also covered the cross site scripting concept to know about XSS to send a malicious script to an unsuspecting user. He was delivered the details about the types of XSS with practical approaches. The session was followed by vulnerability assessment and software penetration testing.

Day – 2

The Second day sessions was handled by Mr. Mr. Varun Pathak, Senior Security Analyst, PwC, Gurgaon, India. He started the first session of second day with the discussion of insecure direct object reference which mainly focused on manipulation and unauthorised access of data. The main focus of this session was security misconfiguration which includes the application frameworks, application server, web server, database server and platform secure setting configuration. The implementation and maintenance was also covered. According to him many web applications do not protect the sensitive data so attacker can easily modify protected data .Hence he had taught how to take the extra protection of sensitive data as well as how to take special precautions while exchanging the data with browser.5 participants were selected for II Round which will be conducted by Delhi IIT.

The poems were compiled into a poetry Collection and published.

COUNSELLORS TRAINING PROGRAM

Career Counselling is a basic factor for distinguishing the genuine potential and required skills graduating students towards a correct profession way. Our students need to know the significance of profession training and right direction before they will pick a place in the field of psychology in addition to the wake of taking the board tests. Such programs will be useful picking a lifelong objective, arranging and provide a guidance to students for a superior future ahead. As an initiative for career orientation of the undergraduate students of psychology, a six day workshop titled counsellors training program was conducted in

association with, Sadhbava counselling and training services, Chennai, during 3 - 8 September, 2018. Ms. Hemamalini Lakshminarasimhan facilitated the workshop as the resource person. 30 undergraduate students participated of which 10 students belonged to colleges other than host.

Ms. Hemamalini, started the Day 1 of the workshop with ice breakers and gathered the inputs as expectations of workshop. Fun tasks were assigned to upgrade collaboration among members and they were gotten some information about Counselling aptitudes. The fallacies of counselling and guidance were featured and comprehended. Day 2 exchanges prompted the comprehension of do's and don'ts in counselling though Day 3 tended to the essential phases of counseling alongside issues identified with professional practice. Participants appreciated the learning of SOLER method at Day 4 and the preparation program finished at Day 6 with introduction towards different territories of Counselling. From the participants' view, the training program was very much helpful and it opened new avenues for undergraduate students of psychology in their career building.

COGNITIVE BEHAVIOUR THERAPY (CBT) - WORKSHOP

Department of Psychology offered a two-day workshop on 19th and 20th September of 2018. The resource person who facilitated was Mr. S. Krishnan, Founder - Well Being Center (A counsellor, psychotherapist, trainer and a member of Chennai Counselling Services). He has Conducted 124 Workshops/Training, benefiting 1200+ Students and 160 professionals.

This workshop covered the essentials of Cognitive Behaviour Therapy; specifically designed to meet the needs of undergraduate students. The workshop was designed to a group of 20-25 students and this is one aspect to the success of the program as it created and fostered an environment.

The workshop was fun and engaging with a range of techniques of Cognitive Behavior Therapy, and mindfulness along within expression of the positive and affirming aspects of their own personalities that make them self reflect.

Television Production Workshop

Centre for media studies has organized a TVP workshop on 28.08.2018 at Multimedia Lab. Assistant director and VFX artist Mr.Murali Krishnan R. take over the session with television production inputs. The session was organized with both lecture and practical explanations. The resource person shared his experience about working assistant director for the movie "Kolamavu Kokila". It was an interactive session for the students to ask questions to the resource person. The next half of the session was done with practical demonstration of lighting technique in green matte studio. The resource person also gave input about working with VFX in green matte studio. Live video recording and green matte editing technique was

thought to the students on the practical sessions. Thus the workshop ended student's discussion on various television production techniques.

Cognito 2018

- The Department organized a Guest lecture on 7th August 2018 called Cognito 2018. The resource person for the day was Mr. Thilak Jerald Anthony, Head – Quality Analysis, Gideon Automobile Industries, Chennai. Being a young person himself, Mr. Thilak was able to deal with the nuances of Inventory Management on a professional scale as well as with an approach which the young students found understandable. A question answer session ensued which saw young minds open up with questions regarding the quality inspections of goods before it enters the market.

Entrepreneurship and Soft Skills

- The Department in connection with Make Intern.com and IIM, Indore organized a paid two-day workshop on 11th and 12th December 2018, on Entrepreneurship and Soft Skills where 45 students from the department underwent the training. The resource person was Mrs. Niky Francis, a trainer from Hyderabad with more than 10 years of experience to her credit. She dealt upon various constituent areas of soft skills as well as the different techniques of entering into the field of entrepreneurship. The students benefitted much from the workshop and they were asked to develop and promote a product with the business plan for the same. Of these, 5 students, Maria Jackson, David Claremont, Alet Xavier, Aliasgar Juzer, and Irene Ancelm represented our college at IIM Kozhikode for the International Business Plan Competition at Echoes 2019 and received good comments from the judge's panel.
